Services

Front Lift System

- Ideal for light to medium density and small to mid-sized commercial and industrial wastes
- The front lift system is the most user friendly, safest and flexible system available
- Customised containers designed to suit your requirements with a standard range of containers from 1m³ to 4.5m³ being readily available
- Wanless specialises in Front Lift systems

Rear Lift System

- Ideal for light weight and small to mid-sized commercial and industrial wastes
- Perfect secondary partner for a primary front lift system
- Wheelie bins can be supplied in a range of sizes and colours, ensuring the system is totally compatible to the customer
 - General Waste
 - Paper Recycling
 - Document Destruction
 - Co-mingle Recycling (plastic bottles, glass and aluminium cans)

Compactor System

- Stationary compactors range from 10m³ to 40m³
- Ideal for high volume commercial and industrial wastes, especially paper and cardboard
- Up to 4:1 compaction ratio ensures maximum efficiency and cost savings
- An extensive list of options and accessories ensure this system is totally compatible to the customer's requirements

Roll On, Roll Off

- Bulk containers are ideal for dense, bulky, non-compatible commercial and industrial waste
- Container sizes range from 8m³ to 30m³ capacities and are made of heavy-duty steel
- High volume waste producers can utilise an on-site stationary or transportable container to reduce costs and service requirements

Paper, Cardboard, Metal & Co-mingle Recycling

Recycling waste resources

- Ideal for all commercial and industrial clients
- This system provides cost savings and is user friendly. Plus, you get the added benefit of promoting your company as a 'green and environmentally friendly' company who recycles
- **Paper and Cardboard**
Recycling cages 3m³ and 8m³ for recycling paper and card
- **Metal Recycling**
Containers supplied for metal collection
- **Co-mingle Recycling**
Recycling plastic bottles, glass and aluminium cans

Industrial Liquid Waste

- A range of tankers from 2,000 to 28,000 litre capacity
- Fully trained operators and knowledgeable sales managers
- Collection and treatment
- Comprehensive service offering from commercial liquid waste to septic tank cleaning
